ANJALEE SAHU

Aspiring AI/ML Engineer | Python & Full-Stack Development
+91 9244089343 | anjaleesahu25@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student (graduating 2027) with hands-on project experience across Python, full-stack web development, IoT, and machine learning, and a completed Artificial Intelligence internship at Persevex. Proficient in Python and C++, with practical exposure to Django, Flask, NumPy, Pandas, and Scikit-learn, plus database experience in MySQL, MongoDB, and Firebase. Solved 100+ problems on LeetCode and HackerRank, with HackerRank certifications in Python and SQL. Seeking an entry-level AI/ML Engineer / Python Developer role to apply strong problem-solving and full-stack development skills.

TECHNICAL SKILLS

Languages	Python, C++
Web Development	Django, Flask, FastAPI, HTML, CSS, JavaScript
Data & Machine Learning	NumPy, Pandas, Scikit-learn
Databases	MySQL, MongoDB, Firebase
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook, Arduino IDE

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — Persevex | *10 Nov 2025 – 10 Jan 2026*

- Successfully completed a two-month internship in Artificial Intelligence, awarded a Certificate of Internship Completion (issued 11 January 2026) for strong commitment and competence throughout the program.
- Persevex is an ISO 9001 certified and Startup India recognized organization.

PROJECTS

Is Drinkable — IoT-Based Water Quality Monitoring System

- Designed and built an IoT-based system that monitors pH and turbidity levels in real time to determine whether water is safe to drink.
- Programmed embedded C/C++ firmware on Arduino to collect sensor readings and transmit data to Firebase for live monitoring and storage.
- Integrated pH and turbidity sensors with a cloud backend, enabling remote tracking of water quality without manual testing.

Technologies: *Arduino, IoT, pH Sensor, Turbidity Sensor, Embedded C/C++, Firebase*

Report Analysis — AI-Powered Medical Report Analyzer

- Developed a full-stack web application that allows users to upload medical reports and receive clear, easy-to-understand explanations of the results.
- Built the backend using Python with MongoDB for structured storage and retrieval of report data.
- Designed the workflow to simplify complex medical terminology into plain-language summaries for non-expert users.

Technologies: *Python, MongoDB*

ACHIEVEMENTS & CERTIFICATIONS

- Solved 100+ problems across competitive programming platforms, including LeetCode and HackerRank.
- HackerRank-certified in Python and SQL.
- HackerRank: https://www.hackerrank.com/profile/anju_sahu0525 | LeetCode: https://leetcode.com/u/_anjalee_sahu/

EDUCATION

Bachelor of Technology — Computer Science and Engineering | *2023–2027*
Malwa Institute of Technology, Indore, Madhya Pradesh
12th Standard — Acharya Chanakya Hr. Sec. School, Seoni Malwa, Madhya Pradesh
10th Standard — Acharya Chanakya Hr. Sec. School, Seoni Malwa, Madhya Pradesh
